## OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the Commissioner of Administration who is appointed by the Governor with the advice and consent of the Senate. The Commissioner appoints the directors of the divisions. OA is comprised of seven divisions, including: **Accounting-** maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning-** analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction-** provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services-** provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program. **Information Technology Services-** manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, and network support to all state agencies; **Personnel-** provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing-** centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts.

In addition, the Office of Equal Opportunity (OEO) is a program housed with the Office of Administration and has primary responsibility for assisting in the coordination and implementation of minority and women participation programs throughout all departments of the executive branch of state government.

A number of boards and commissions' budgets are also assigned to OA including: Administrative Hearing Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); the Missouri Ethics Commission; and the Board of Fund Commissioners Public Debt (House Bill 1), which appears in a separate budget book entitled "Board of Fund Commissioners". Appropriations for state general obligation debt are appropriated to the Office of Administration in House Bill 1 and budget requests appear in a separate budget book entitled "Board of Fund Commissioners".

The Office of Administration also administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, budget requests for those benefits appear in a separate budget book entitled "Employee Benefits."

# Strategic Placemat – Our Top Priorities for FY23

## Office of Administration

FY23 – updated 8/19/2022

### VISION

*Excellent customer service, every time.*

### FOCUS AREAS

#### Team Member Focus

Recognize superior performance, provide opportunities for growth and engage our team members

#### Customer Focus

Provide quality solutions to enable our partner agencies to deliver impact to their customers

#### Culture of Excellence

Improve how we work by using standardized tools and training while promoting a culture of continuous improvement

#### Technology Solutions

Looking to the future, implement technology that will improve how we work and provide a better customer and team experience

### STRATEGIC INITIATIVES

#### 1A. Increase Focus on Quarterly Pulse Survey Data:

Use QPS data to unite around a shared vision, improve culture, and implement solutions.

#### 1B. Compensation Strategy:

Develop training on compensation best practices and propose legislation for annual salary adjustments.

#### 1C. Professional and Leadership Development Award (PLDA):

Develop and implement a \$7 million dollar statewide program to reward and support the top 10% team members to grow in their career to better serve customers.

#### 2A. Applications Assessment and Planning:

Complete an assessment of ITSD supported software applications to create a multi-year strategic roadmap.

#### 2B. Customer Experience Feedback Tool:

Develop and pilot a measurement system and process to gauge and respond to customer experiences with the State of Missouri.

#### 3A. Onboarding:

Design a framework so OA new hires have the best employee onboarding experience their first 90 days.

#### 3B. Call Center Optimization:

Convene a cross departmental call center working group to optimize data dashboards and call center practices.

#### 3C. D&I Journey:

Implement plans for the coming year that focus on creating a resilient workforce and strengthens our communities through increasing diversity and inclusion in OA.

#### 3D. FMDC Apprenticeship Program:

Examine the viability; develop and implement an FMDC apprenticeship program to address the needs in skilled trades talent development.

#### 4A. ERP Preparation:

Improve the quality of data stored in the State's accounting system to ensure effective implementation of new ERP system.

#### 4B. Establish Enterprise Architecture (EA) standards:

Design a new technology foundation to support enhanced user experience for citizens and team members.

#### 4C. Identity and Assess Management (IAM):

Implement IAM technology that will include single sign-on, multi-factor authentication, on and off boarding workflow, monitoring and compliance for all Active Directory agencies.

### 2. CORE DESCRIPTION

The Commissioner's Office provides centralized services to the department, including legislative and policy issue research and tracking, legal counsel, and budget preparation and tracking. The statewide Office of Equal Opportunity (OEO) as well as the newly created Prescription Drug Monitoring Program (PDMP) are also assigned to the Commissioner's Office. The core budgets for OEO & PDMP appear as separate requests.

### 3. PROGRAM LISTING (list programs included in this core funding)

See OA Divisions' program listings.

### 2. CORE DESCRIPTION

The Office of Equal Opportunity is governed by Executive Order 10-24. The Director of OEO serves as the State Employment Opportunity (EEO) Officer. The OEO Director has the primary responsibility of assisting in the coordination and implementation of workforce diversity programs throughout all executive branch departments and for advising the Governor on issues regarding equal employment opportunity, workforce diversity, and efforts to administer workforce diversity action targets, and timetables for implementation throughout the department.

Additionally, the OEO Director serves as the State's Chief Compliance Officer for the executive branch, to ensure that the State is complying with all federal and state laws concerning equal employment opportunity and workforce diversity. OEO assists each department in developing a workforce diversity plan. Additionally, the OEO reviews progress reports of the departments to evaluate results and determine the course of future workforce diversity targets, timetables, recruiting, planning and implementation.

OEO submits a report to the Governor and the Commissioner of Administration annually, which summarizes the activities of each department and contains recommendations for additional programs that will help accomplish the goals of Executive Order 10-24. The Director of OEO has the primary responsibility for assisting in the coordination of affirmative action throughout all departments of the executive branch, including programs to increase M/WBE participation in contracting opportunities.

## PROGRAM DESCRIPTION

Department: Office of Administration

HB Section(s): 5.005

Program Name: Office of Equal Opportunity

Program is found in the following core budget(s): Office of Equal Opportunity

### 1a. What strategic priority does this program address?

The Office of Equal Opportunity (OEO) exists to promote a diversified workforce within state government, and to assist minorities and women with the platform to participate in the state of Missouri's procurement opportunities for various supplies, construction, equipment, and services. These programs are supported by robust outreach and engagement efforts and ensure compliance with all applicable laws.

### 1b. What does this program do?

#### **Workforce Diversity Program – OEO will assist and support state executive departments.**

- Support executive departments in their efforts to build a welcoming and inclusive environment that promotes the talent and skills of a diverse workforce.
- Maintain a diverse workforce through monitoring the creation and implementation of executive departments workforce diversity plans.
- Assist executive departments in developing and implementing strategies and programs designed to support the retention and success of our employees.

#### **Supplier Diversity Program – OEO:**

- Establishes the Minority and Women-owned Business Enterprises (M/WBEs) program that certifies businesses to participate in procurement opportunities in both public and private sectors.
- Maintain a directory of certified M/WBEs, while encouraging the utilization of these certified businesses by executive departments in state procurements.
- Develop and promote access to information, resources, and capital that will lead to contracting opportunities and assist in the growth of small business for economic impact.

#### **Outreach and Engagement - OEO**

- Supports Workforce Diversity and Supplier Diversity Programs through engagement with strategic stakeholders, partnership development, and MOUs.

### 2a. Provide an activity measure(s) for the program.

#### **Certification**

- M/WBE Certifications Completed
- Awarded M/WBE Prime contracts with the state
- Outreach and engagement events attended

#### **Workforce Diversity**

- Minorities and women represented in executive positions

### 2. CORE DESCRIPTION

The Prescription Drug Monitoring Program (PDMP) was established through new legislation during the 2021 regular session for the purpose of overseeing the collection and use of patient dispensation information for prescribed controlled substances. A newly created Prescription Drug Monitoring Task Force will oversee this program with technical, legal, and administrative support being provided by the Office of Administration. This program also requires the joint oversight task force to enter into a contract with a vendor through a competitive bid process for operation of the prescription drug monitoring program. The vendor shall be responsible for the collection and maintenance of patient dispensation information.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

In FY23, a portion of the funding budgeted for Prescription Drug Monitoring was budgeted as one-time funding to cover start up costs for the program. Due to the uncertainty of the timing for awarding the contract to a vendor, this authority is being requested again in FY24. The Prescription Drug Monitoring Program also recently received notice that additional federal funding may be available to cover start up costs. Additional federal authority is being requested for PDMP in a FY23 supplemental NDI. As the timing for receiving and expending all of the available funding is currently uncertain, additional federal authority is being requested in FY24 to allow federal funding to offset a portion of these costs if it cannot be fully expended in FY23.

An Administrative Support Professional position is also being requested to help support the office when the program is up and running including answering calls, training, helping providers register in the system, resetting passwords etc.

There are custom off the shelf solutions that are utilized by other surrounding states with an estimated cost of \$1,390,652 for initially setting up the database. \$1,400,000 in additional federal authority is being requested to allow the PDMP to expend federal grant funding that may be available to support start up costs for the program. Funding for an Administrative Support Professional position is also being requested to help support the office when the program is up and running including answering calls, training, helping providers register in the system, resetting passwords etc.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

Number of scheduled II, III, or IV controlled substances prescribed in Missouri.

Number of required dispensers reporting dispensation information.

Number of authorized users reviewing the PDMP.

**6b. Provide a measure(s) of the program's quality.**

Positive feedback from authorized users.

Feedback indicating change in prescribing practice.

Feedback indicating potentially dangerous prescriptions were stopped before being dispensed.

**6c. Provide a measure(s) of the program's impact.**

Reduction in the total number of opioid prescriptions.

Decrease in the amount of drugs available for diversion.

Reduction in overdose deaths from prescribed opioid prescription medication.

**6d. Provide a measure(s) of the program's efficiency.**

Integration eliminates time logging into and out of systems.

Real time data submission eliminates the potential for missed prescription information.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

Implementation of the PDMP will allow these target outcomes to be realized. Implementation will include educating dispensers and providers on the requirements found in 195.600, RSMo. while also revealing to them how to be compliant with state law. Registered users of the system will be educated on the information and reports available from the PDMP and be encouraged to review the data before making prescriptive decisions involving schedule II, III, or IV controlled substances.

### 2. CORE DESCRIPTION

This core is for a statewide electronic monitoring pilot program. The program's objective is to monitor individuals subject to pre-conviction or post-conviction through a check-in system that the supervising agency or circuit can access through a secure web-based platform. The program should also establish exclusion zones and compliance levels through the platform and generate reports with relevant information for individuals monitored through an industry standard end to end encryption and redundant back-up for data.

**2. CORE DESCRIPTION**

This core request is to fund the operations of the Division of Accounting. The Division provides a central payroll processing function, central accounting service, and a statewide financial reporting function for the State of Missouri. This includes producing payroll ACH/checks and vendor payments. The Division also prepares and distributes comprehensive, accurate and timely financial reports for the State of Missouri. In addition, the Division is responsible for monitoring and oversight of the employee benefits programs; providing support and oversight for issuance of debt; and oversight of all Office of Administration payments. The Division is also responsible for the administration of social security coverage for state and political subdivision employees.

In addition to the primary operations of the Division of Accounting, the State is in the process of replacing SAM II, the State's legacy Enterprise Resource Planning (ERP) with a new ERP system as discussed in HB Section 5.045. This funding request is for additional FTE needed to implement both the Budget and Finance/Procurement modules which are scheduled to begin implementation around 8/16/22. The Budget implementation is expected to last 11 months. The Finance/Procurement implementation is expected to last 24 months. This request is for technical experts related to budget, finance, procurement, and IT necessary to ensure a successful implementation. Tasks required for implementation are numerous. A short list includes: system design and configuration, workflow development, extension testing, data migration, data reconciliation, training, change management and communication, some process redesign to take advantage of new features, and audits of system security.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 30404C <b>BUDGET UNIT NAME:</b> Accounting Operations <b>HOUSE BILL SECTION:</b> 5.015	<b>DEPARTMENT:</b> Office of Administration  <b>DIVISION:</b> Accounting Operating Core
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
This request is for 25% flexibility between PS and E&E to support Accounting and ERP implementation operations expenses. 5% flexibility was approved in the FY23 budget. However, additional flexibility is necessary to ensure the ERP project can be implemented successfully. If qualified state staff are unavailable, flexibility will be used to hire needed contractors with the specialized skills that will be required.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$18,000	Unknown
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Estimated \$1,200,000	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
In FY23, \$14,000 was flexed from Accounting PS to Accounting E&E to allow for the purchase of laptops for ARPA staff. \$4,000 was also flexed from ERP Implementation PS to ERP Implementation E&E to purchase laptops for ERP staff.	Flexibility is needed to assist with hiring and retaining qualified staff for statewide critical accounting and payroll functions and assistance with new statewide ERP. Flexibility also allows the division of Accounting to effectively manage resources and maintain critical business functions during unforeseen circumstances.

### 2. CORE DESCRIPTION

Chapter 33, RSMo tasks the Division of Budget and Planning to assist in executive branch management. The core amounts provide the ability to carry out the functions listed in #3 below.

### 3. PROGRAM LISTING (list programs included in this core funding)

The Division of Budget and Planning (BAP) exists to improve the lives of Missourians by making government better by providing analysis, resolving problems, and embracing improvement.

Specifically, BAP provides analysis and data to the Commissioner of Administration, Office of the Governor, General Assembly, and state agencies regarding fiscal and other policies. Our primary duties include:

- to provide support to the Governor in the creation of the Governor's recommended budget, and
- to serve Missouri taxpayers by implementing the final budget in a balanced and efficient manner.

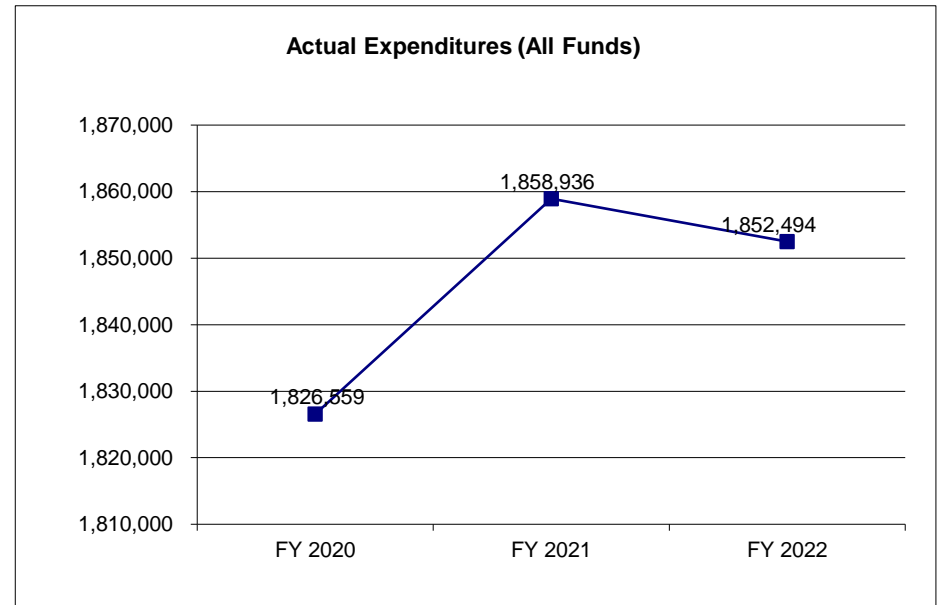

Additionally, BAP provides economic forecasts, state demographic services, legislation monitoring, and coordinates the executive agencies in addressing statewide

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

What would happen if one or more key Executive Branch budget process participants became incapacitated or unavailable at a critical moment? How might this impact the overall budget constitutional mandates? How might this impact the Executive Branch's ability to meet constitutional demands? How might this impact the Executive Branch's ability to collaborate with, and provide accurate timely responses to, the General Assembly? Even a moment's reflection on these questions can conjure images of potential chaos and threats to the process.

**Continuity of operations planning is essential for the state budget process. Such planning must consider the loss of pivotal budget process participants.**

<p>Beyond the Governor, the Executive Branch state budget process has three positions of particular importance: The State Budget Director, the Assistant State Budget Director, and the State Economist.</p> <p>As directed by gubernatorial leadership, the State Budget Director captains the budget process in the Executive Branch and directs implementation of the finally passed budget. The Assistant State Budget Director provides indispensable technical support the State Budget Director requires. Finally, the State Economist provides on-going revenue collections data and analysis critical to a balanced budget. The State Economist also assembles the fiscal estimates for tax legislation.</p> <p>To maintain an uninterrupted ability to build and implement a constitutionally balanced budget, the Division of Budget and Planning requests a new position to support and cross train with the Assistant Director for Budget. Additionally, to free up budget function capacity for the Assistant Budget Director, this position will assume some administrative duties as well as supervise and cross train with the State Economist. For the same reason, this position will assume supervision of several other team members as well.</p> <p>In the event of key budget participant's unavailability, this cross-trained position will allow remaining Budget and Planning team members to quickly and effectively shift duties in order to meet constitutional and statutory mandates.</p> <p>Additionally, this emergency response plan will allow the Executive Branch to continue to provide timely collaboration and accurate data to the General Assembly.</p>	
<p><b>4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)</b></p> <p>The estimate assumes one additional team member whose salary is consistent with other Budget and Planning team members of similar duties and responsibilities. The team member will be housed in existing Budget and Planning space.</p>

**1a. What strategic priority does this program address?**

Using data and analytics to improve decision-making and transparency.

**1b. What does this program do?**

Budget and Planning manages the state's budget processes to achieve a balanced budget, promote financial stability and health, and to ensure the efficient and effective use of taxpayer dollars by:

- developing an annual Executive Budget in conjunction with the state agencies,
- forecasting state revenue collections and preparing economic forecasts,
- continuously monitoring revenues and spending to ensure a constitutionally balanced budget, and
- promoting fiscal transparency.

Budget and Planning also:

- analyzes budget, tax, fiscal policy, and legislative issues for the Executive Branch,
- coordinates with agencies to implement fiscal policies and priorities,
- monitors and reviews legislation with budget implications,
- monitors, tracks, and reviews legislation before the General Assembly,
- reviews and/or coordinates state-wide fiscal note responses,
- is the designated state demographic agency with demographic and reapportionment duties, and
- provides additional oversight and counsel for the statewide financial system upgrade.

### 2. CORE DESCRIPTION

Section 37.130, RSMo., provides that the demographic unit in the Office of Administration "shall provide requested assistance in all reapportionment matters". The United States census occurred on April 1, 2020. The Missouri State Demographer prepares census, geographic, and election databases for reapportionment efforts following the census. In FY23, this core provided temporary staff and resources to support reapportionment activities including software and equipment purchases, training, data compilations, setting up a redistricting office, creating and maintaining a website for public use, coordinating public meetings and travel, filing draft and final plans with the Secretary of State, making maps of new districts available to elected officials, and providing data and support in the event of post map making legal challenges.

In FY24, with district map drawing duties presumably complete, the core request is to cut the majority of the funds but retain a small amount needed for on-going census/redistricting software licenses and some census related training.

### 2. CORE DESCRIPTION

This core request is to fund centralized, enterprise-wide IT services for the 14 different departments that are supported by the Office of Administration, Information Technology Services Division (ITSD). The consolidation of these resources along functional units within ITSD has allowed the State to leverage knowledge sharing and collaboration among IT professionals, and reduce costs through aggregation of like contracts & services and volume purchasing options.

### 3. PROGRAM LISTING (list programs included in this core funding)

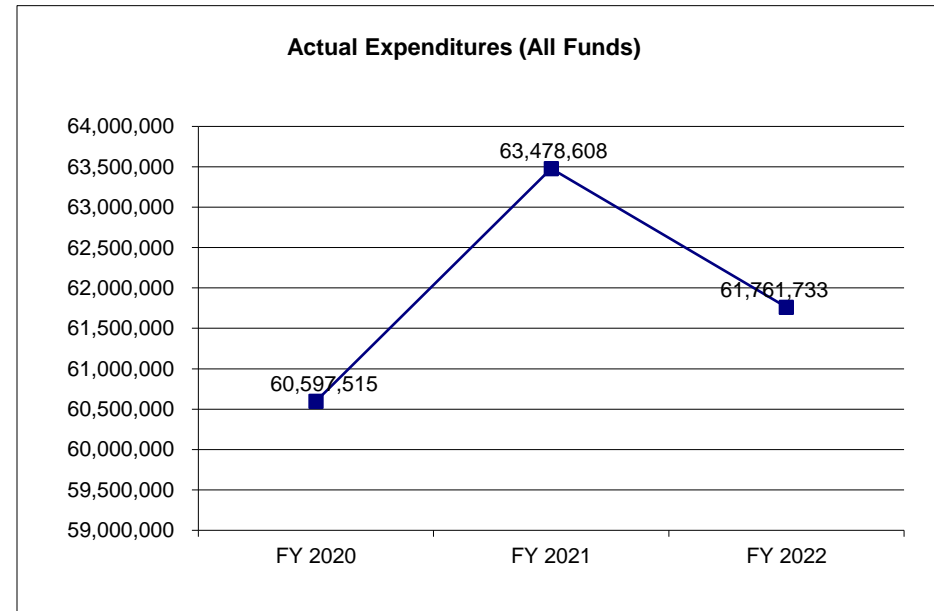

Office of the CIO	Office of Cyber Security
State Data Center	Enterprise Project Management Office
Telecommunications/Network	Office of Geospatial Information
Client Engagement Services	Fiscal & Administrative Services

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 30615 <b>BUDGET UNIT NAME:</b> ITSD Consolidation <b>HOUSE BILL SECTION:</b> 5.025	<b>DEPARTMENT:</b> Office of Administration  <b>DIVISION:</b> Information Technology Services Division
---	--

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

### DEPARTMENT REQUEST

ITSD is requesting 25% flex between PS & EE within section 5.025 and 25% flex between section 5.030 and section 5.025. This is the same level of flexibility as FY23. This flexibility is requested to help manage priorities for all consolidated agencies. Constantly changing needs of the departments served by ITSD require that funding be flexible so that proper spending from the appropriations is maintained. It is critical ITSD retain key technical staff that continue to optimize the IT systems and maintain technical support so that E&E operating costs are contained and managed. In addition, certain software, equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner without artificially increasing the "federal and other" appropriation authority of various funds.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$2,020,373	Unknown	Unknown

**3. Please explain how flexibility was used in the prior and/or current years.**

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
To adjust funding sources for PS and EE for various ITSD appropriations.	Flexibility will be used as necessary to optimize ITSD efficiencies and maintain critical IT infrastructure for agencies.

SB 820 includes the provision that "beginning January 1, 2024, high speed wi-fi internet access shall be provided to the public within the State Capitol building and on Capitol grounds".

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Based on cost of access points, firewalls, construction, cabling and project management, OA assumes a cost of \$5,438,906 to implement the requirements of this provision of legislation. The capitol construction materials do not allow Wi-Fi signals to penetrate easily which may require more Access Points (AP). The capitol is a historic building and running cable may be more expensive. Due to running cable in a historic building, OA's assumptions on outside/grounds may not be inclusive enough. Full break down of estimated costs can be found in fiscal note 5571H.021- <https://house.mo.gov/billtracking/bills221/fiscal/fispdf/5571H.021.ORG.pdf>

The annual ongoing cost is estimated to be between is estimated around \$600,000.

The state currently has at least three cloud services in use. Amazon Web Services (AWS), Microsoft Azure, and Oracle. The state is moving or has plans to move or install more systems in the cloud. The state systems installed within each of these clouds will have interconnectivity requirements to share data with other systems whether in a cloud or on-premise.

Connections to each of these cloud services can run upwards of \$50,000/year for the circuits.

Connections between each of these cloud services can run upwards of \$2,000,000/year depending on the amount of data moved back and forth.

**NEW DECISION ITEM**

<b>Division Information Technology Services Division (ITSD)</b>	
<b>DI: Cloud Interconnectivity Services</b> <b>DI# 1300032</b>	<b>HB Section</b> <u>05.025</u>

The best solution for this interconnectivity is to utilize a cloud connectivity service where a single connection allows access to many cloud hosts such as AWS, Azure, Google, Oracle, etc.

The Cloud Interconnectivity provider takes care of setting up communication and data interfaces between the cloud hosts used by the state. This simplifies the process and creates a standard method of interconnection with new cloud hosted services.

- > There will need to be two direct connect circuits of 10Gb @ \$3,500/month - \$84,000/year
- > There will need to be a minimum of three virtual cross-connects between clouds of 10Gb @ \$1,300/month - \$46,800/year
- > There will need to be at least three virtual cloud routers of 10Gb with costs depending on amount of data moved between systems. Estimating \$1,000,000 annually.

Monitoring state applications and infrastructure to ensure performance, availability, proactive support, and issue resolution is a fundamental and critical duty of IT. As our use of the cloud applications grows investment in user management, support and monitoring tools are required. IT has managed to do just enough with basic and rudimentary tools that are built in to the technology. To effectively manage and support the multiple cloud infrastructures advanced tools that provide deep insights, diagnostics, and performance measures are needed to ensure availability and performance of the state's applications.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This initiative supports the State of Missouri implementation of Single Sign-On (SSO) and Identity Access Management (IAM) for over 5 million Missouri citizens and 45 thousand internal employees. This is the secure access management key-stone for the State of Missouri's Digital Transformation Initiative and is required to facility efficient and ease-of use access to all State Agency internet systems. Enterprise single sign-on is required to facilitate both employee and citizen Access Management process security efficiency and productivity This is a best practice ITSD initiative that is a key enabler of the Digital Government Transformation project funded by ARPA. The vendor selected is industry recognized as a leader in providing secure, regulatory compliant, and efficient access management solutions.

Funding levels are derived from project scoping based on the number of licenses, internal users, external citizen users, and process workflow complexity. The state of Missouri ITSD has also worked closely with the State of Iowa, Illinois and New York (all of which have implemented the same solution architecture for internal and external (citizen) accounts. Based on size and complexity comparisons, the budget was projected. Additionally, 13 use case scenarios were evaluated with the vendor and internal ITSD experts to determine the ease of architecture and feature deployment as well as sustainability.

The enterprise implementation will be a federated model where a core organization from ITSD is responsible for the product standard, feature standard, and workflow standard; the agencies will provide resources as required to facilitate access on-boarding and off-boarding for employees and citizens.

This item requests funding to procure and implement a tool to document assets both physical and virtual within 14 Consolidated agencies. It will provide visibility into both on premise and cloud assets. Along with an inventory of both physical and virtual assets, the tool should provide visibility into software licenses including procurement, entitlement, utilization, compliance and auditing.

Cloud spending is increasing across the State Agencies, wasteful spending occurs if virtual and software assets are not managed like a physical asset would be. National average of cloud spend that is wasteful is approximately 25%. ITSD needs tools to help manage these assets that are not manual tracking in spreadsheets.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

Additional operational staff along with monitoring and troubleshooting tools are required to ensure the state has the capability to adequately monitor applications and technology infrastructure, proactively identify problems, efficiently isolate and resolve technology issues quickly, and perform effective root-cause analysis to drive continuous improvement. This investment would allow ITSD to create a Command Center operation dedicated to support the State of Missouri Agencies and the Services they provide. As more applications are modernized, it is extremely important to validate performance before and after implementation. This is to help provide the best solutions possible for agency users and citizens.

One of the Top Goals of any IT Organization is to provide our Customers, Agency and Public, a stable platform in which to conduct their daily business. As we grow we face the challenge below:

- > Consolidated agencies are impaired in providing efficient and timely care and services due to the lack of an adequate number of technical staff and resources in OA-ITSD necessary to proactively monitor critical computing systems and network infrastructure that support the work of the agencies. Due to continued increases in agency services and technology needs, ITSD has not had the budget necessary for an increase in ITSD technical resources that are required to adequately monitor and support new services. This impacts the Agency's ability to provide quality services to our citizens.
- > Since IT consolidation was put in place in 2006, the number of IT systems being supported by IT staff has doubled, while the number of IT resources to support those systems has been reduced by 20%.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

- > The total IT FTE request is for 9 new Operations Command Center FTE at a cost of \$700,000
- > This request includes 3 new Incident Response teams with 2-3 FTE per team and 2 FTE responsible for connecting the monitoring tools to all existing and new end user applications
- > New and enhanced IT system monitoring tools and resources necessary to provide proper proactive monitoring, enhanced analysis and reporting, and improved communication at a cost of \$2,650,000 - This number was determined by evaluating several software products. During the evaluation, budgetary numbers were provided by the vendors. Also included in the evaluation conversations were had on support of the platform. This was used to determine the headcount to support the monitoring tool.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

Addition of highly skilled IT technical staff available outside normal business hours decreases delays in service restoration and critical communication. It is now necessary to provide a higher level of technical service 24x7x365 in order to properly serve and support the needs of agencies and citizens.

**6b. Provide a measure(s) of the program's quality.**

By having highly trained and focused team members, the Mean Time to Repair (MTTR) will be reduced and will also produce improved communication to customers.

Application performance problems are identified in non-production before being implemented.

Performance issues are identified in production before the user is effected.

Degradation and downtime for applications is minimal due to performance.

**6c. Provide a measure(s) of the program's impact.**

Improved MTTR will result in less down time for State applications, systems, and office sites.

Increase agency experience thru improved performance.

Reduction in time and cost to resolve Severity 1 tickets

**6d. Provide a measure(s) of the program's efficiency.**

100% SLA's are achieved for applications supported by ITSD.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

Improvements in operational policies and procedures as well as improvements in monitoring and reporting will allow us to achieve the desired results.

<p>This project will procure and implement a tool to be used to manage the architecture of the IT Enterprise. This tool will allow the State to create and provide a central repository for models, documents, architectures of the information systems they support. It will provide the ability for both the business and IT to have a big picture of the information system architecture, technologies, interfaces and relationships across the Enterprise. Many Enterprise Architecture tools also provides Application Portfolio Management, Business Capability Management and Business and IT Roadmapping.</p>

Over 1200 applications exists within the state that are comprised of many software products, various languages that are end of life with no visibility. There is a lack of information about duplicate products that exist across agencies, and similar applications or technologies can't be leveraged without compiling this information into a single repository.

Investment in this tool will provide insights that help streamline technologies and leverage standard technologies across all agencies, where applicable, instead of duplicating investments in similar technologies when one could be used across the enterprise.

### 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The state network is vital to providing services to our citizens. Every agency is dependent on the network to be available at all times. The state network is a complex system incorporating Local Area Networks (LANs), Wide Area Networks (WANs), cybersecurity systems, state data center resources, and over 100,000 endpoints (endpoints include – PCs, Laptops, printers, servers, cameras, HVAC monitoring systems, etc). Security and monitoring of the network is extremely important to ensure it is available at all times. A large part of that security is keeping all components of the network on the latest operating systems and security patch levels. Currently staff are manually applying upgrades/patches on network components due to limitations with the current configuration tool. This is not an efficient use of staff time and increases the possibility of unpatched devices being exploited. This has been an area of concern for various auditors who have audited our systems. Purchasing a Network Management & Automation system and licensing will allow for faster, automated deployment of patches and upgrades.

To ensure that the network is available as needed, it needs to be constantly monitored. Endpoint monitoring is done on an as-needed basis today. This request will provide for constant monitoring of endpoints at all locations, increasing our ability to troubleshoot performance issues and network outages.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

The number of endpoints being constantly monitored will increase and network activity will be mapped to determine where issues can be resolved and efficiencies created.

The total number of devices at more than N-1 upgrades as well as the number of unpatched devices. With automated patching, the total will drop to a less vulnerable number.

**6b. Provide a measure(s) of the program's quality.**

More devices with operating systems at a current level (N). This allows the state to take advantage of any new features in a more timely manner.

**6c. Provide a measure(s) of the program's impact.**

Faster resolution of network issues resulting in greater productivity and customer availability.  
Reduction vulnerabilities on network devices.

**6d. Provide a measure(s) of the program's efficiency.**

Less downtime for end-users allowing for more productivity.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

By deploying a network management and automation solution, the State will reduce it's security risks and more quickly be able to take advantage of new features of the network devices.

## PROGRAM DESCRIPTION

**Department** Information Technology Services Division

**HB Section(s):** 5.025 & 5.040

**Program Name** Office of Cyber Security (OCS)

**Program is found in the following core budget(s):** Information Technology Services Division

### 1a. What strategic priority does this program address?

- Technology Solutions: Looking to the future, implement technology that will improve how we work and provide a better customer and team experience
- Protecting Confidentiality, Integrity, and Availability of Missouri state Government computer processes and electronic data.
- Governance of IT Security programs to meet industry best practices and state and federal regulatory requirements.

### 1b. What does this program do?

ITSD Office of Cyber Security provides the following services in compliance with State and Federal Regulatory compliance:

- Identification and assessment of State of Missouri electronic assets that must be protected.
- Protections of State of Missouri electronic assets to industry best practice standards (e.g., NIST 800.53)
- Detection of threats to State of Missouri electronic assets
- Responsive and mitigation of exploits occurring against State of Missouri electronic assets
- Recovery of assets to a clean, production state of State of Missouri electronic assets

### 2. CORE DESCRIPTION

This core request is for funding for all IT expenditures specific to the Department of Higher Education and Workforce Development (DHEWD), including new IT hardware and software, hardware maintenance, annual software licensing, State Data Center and telecommunications/network charges, and application development.

### 3. PROGRAM LISTING (list programs included in this core funding)

ITSD-DHEWD

## CORE DECISION ITEM

Federal	2	921,280	1,452,939	N/A
Other	206,444	234,604	210,068	N/A

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30609C which is now combined with this section beginning FY2021. DHEWD also now includes the division of workforce development which is the reason for the large appropriation increase. This amount was reduced from the DED IT Core.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The current manual process required for the submission, review, and posting of CORE 42 courses results in missed deadlines; missing, lost, or inaccurate data; loss of credibility in the department; and failure to meet the statutory requirements. The current manual tracking of courses from proposal to approval has a high probability of human error. State statute requires that institutions indicate in their course catalogs which courses are considered to be part of the CORE 42. Delays by 4-5 months create inaccuracies in institutions' catalogs, because the information is not received in time for their own timelines. Delays in publishing the yearly database of approved courses has caused extra work for our customers (academic advisors and registrars) and has meant that key information has been excluded from college catalogs. It negatively

affected students who did not have access to the most up-to-date information when making choices about course selection and transfer. This can be costly and cause graduation delays for students, as they may have to take additional courses they were unaware of. CORE 42 needs a secure portal for individuals to submit and review courses, a method of communicating both within the portal and externally, and the ability to generate reports both based on actions performed in the portal and on data stored in the portal. Automating CORE 42 will allow staff to be more efficient, course inconsistencies and errors will be minimized/eliminated, managing faculty discipline groups will be more organized, deadlines can be met, and communications between DHEWD and higher education institutions will be improved.

In 2016, Senate Bill 997 established the Higher Education Core Transfer Curriculum Act (Sections 178.785-789 RSMo), directing the Coordinating Board for Higher Education to develop a standard core transfer curriculum and a common course numbering equivalency matrix for lower-division general education courses. This project supports the processes to maintain, evaluate, and communicate the CORE 42 to the thousands of students, faculty, staff, administrators, high school counselors, parents, and other interested parties across the state. However, for each academic year, there are more than 500 new courses to be reviewed, and each course requires an application, attachments, posting to a dedicated review webpage, a review by multiple faculty members, a vote, storage and communication of the results of the review. Course reviews would be more transparent if information could be posted for stakeholders to monitor. The goal of the CORE 42 is to facilitate the seamless transfer of academic credits. DHEWD is currently managing the proposal and review of new CORE 42 MOTRs (Missouri Transfer number) and courses via email and Excel spreadsheets.

This decision item was approved in FY23 and made one time funding. At the time of department budget submission, there is not yet a project plan with set deliverables in place so this request is identical to the FY23 request to ensure successful completion of the project.

## 4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DHEWD worked with ITSD to develop a comprehensive business case that incorporated all costs and risks. For example, It is estimated that the new process will reduce staff time from 508 hours per year to 171 hours per year if the new system is created. The system helps reduce errors and promotes cost avoidance for students as they avoid taking unnecessary courses. This project will ensure students have access to the most accurate and up-to-date information. Delays in publishing the yearly database of approved courses has caused extra work for academic advisors and registrars and has meant that key information has been excluded from college catalogs. Institutional staff and administrators have been burdened by manual processes when DHEWD cannot produce the approved courses in a timely manner. The project is estimated at the cost of \$466,943.76 with five-year maintenance estimated at \$51,385.40, as the Enterprise Solution cost is unknown at this time. It is estimated that the new process will reduce staff time from 508 hours per year to 171 hours per year.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

- Data published is accurate and timely.
- Academic Catalogs are updated timely so students know if a course will transfer at the time of registering for the course.

**6b. Provide a measure(s) of the program's quality.**

- Improved accuracy of the Missouri Transfer number and selection and course voting approval process.
- Increased transparency in the course submission and approval process.
- Accurate information displayed to students in the course transfer tracker.

**6c. Provide a measure(s) of the program's impact.**

- Student receive accurate, timely information that helps them make informed decisions and enhances their ability to graduate on time.

**6d. Provide a measure(s) of the program's efficiency.**

- Time to process course submissions is reduced.
- Final database of courses is published more timely.
- Database errors are reduced.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

DHEWD would work with ITSD to implement the approved project business plan using a combination of state and contracted personnel resources. Automation of this process can create staff efficiencies, as it will relieve the burden of manual processing, will minimize errors, will assist with project organization, and timelines will be more easily met.

The deadlines to publish the yearly list of courses within the CORE 42 is based on the academic calendar and the participating schools' catalog, admissions, and advising schedules. While this deadline is not mandated, the department's failure to meet it causes a ripple effect that delays schedules for multiple stakeholders across the state.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

This item requests funding for an automated Fast Track administrative system including a student facing component contained in the DHEWD Student Portal, as well as a component that provides information to postsecondary institutions and DHEWD staff which is necessary for administering the program. Much of the needed functionality has been developed; this funding would allow for the remaining development and testing. This funding would allow ITSD and DHEWD to complete the remaining components that are necessary to allow the system to become fully functional, and would provide the support necessary to adequately administer a grant that converts to a loan program.

This decision item was approved in FY23 as one time funding. At the time of department budget submission, there is not yet a project plan with set deliverables in place so this request is identical to the FY23 request to ensure successful completion of the project.

## 4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

In the past few years, economic and social changes have led adults in relatively low pay occupations to have an increased interest in upgrading their employment to positions with higher wages and better benefits. In addition, there has also been increased the need for skilled labor, particularly in the healthcare fields, to meet the new and pressing workforce demands. The Fast Track program is uniquely structured to address these problems as an adult-focused financial aid program which addresses workforce needs by helping adults pursue a certificate, degree, or industry-recognized credential in an area designated as high-need. To improve the process for adults wanting to upskill using resources provided through the Fast Track program, the department requests system upgrades to its Fast Track administrative system. The Fast Track administrative system includes a student-facing component, contained in the DHEWD Student Portal, and an administrative element, that provides information to postsecondary institutions and DHEWD staff necessary to administer the program and better serve students. This request would allow the DHEWD and ITSD to complete vital enhancements to this administrative system.

While additional information and requirements gathering will be needed to detail the nature and scope of the needed additions, there are several key system components that require additional development to ensure the system addresses the needs of students and postsecondary institutions. For students, the DHEWD student portal would be revised to provide students with more complete, real-time information about their eligibility including documentation of the student's current status in the payment, employment, and repayment processes. Postsecondary institutions would see improvements through automated and electronically available calculations of students' eligibility and award amounts. The changes would correct existing problems and further enhance the enrollment status reporting that is required to determine when the student has met the in-school program requirements to avoid the grant becoming a loan, as well as developing processes to handle the employment deferments and waivers and discharges that are specified in statute.

The costs would include salary for ITSD staff to provide oversight of the project, needed licenses and related software components, and up to three contracted development staff for approximately seven months of work.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Missouri families, students, policymakers and employers depend on the education and workforce data provided by DHEWD to make employment, education, and career decisions. DHEWD's enterprise data systems, including the Workforce Longitudinal Data System (WLDS), Workforce Information Database (WID), and public-facing Missouri School Credentials for Occupations Resulting in Employment Success (MoSCORES) and Missouri Economic Research and Information Center (MERIC) websites are in need of a range of enhancements that would render them more usable and efficient for DHEWD business and ITSD staff, and in the case of MoSCORES and the MERIC website, more usable and dynamic for public/external users.

<b>Division: Information Services Technology Division (ITSD)</b>				
<b>DI Name</b>	<b>DHEWD Enhanced Data for Decision Making</b>	<b>DI# 1300023</b>	<b>HB Section</b>	<u>05.030</u>

The need for these enhancements and process improvements, have become apparent in recent years as internal staff have maintained the databases, and in the case of MoSCORES and the MERIC website, as external users have requested reports and data which the systems could not produce, and which instead have resulted in time-consuming ad hoc requests.

This decision item was approved in FY23 and made one time funding. At the time of department budget submission, there is not yet a project plan with set deliverables in place so this request is identical to the FY23 request to ensure successful completion of the project.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

A comprehensive solution will include improved/enhanced search and reporting functionality in MoSCORES, as well as process improvements to automate additional data transfer to and within the WLDS, and from the WID to the MERIC website. Both MoSCORES and MERIC websites will better serve the Missourians who rely on those sites for accurate, easy-to-access data. It would also make use of the enterprise Identity and Access Management and Enterprise Orchestration Engine as those become available, to better work within the state ecosystem, in an effort to partner with OA-ITSD.

The agency worked with ITSD to determine an estimate for this effort. The team looked at what would be needed from the vendor and the development team in order to estimate the resources and the cost for this project.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

Improved data management processes and better search and reporting capability will save significant staff time on administration and ad hoc requests, and free up staff to fulfill additional research and reporting obligations.

**6b. Provide a measure(s) of the program's quality.**

Enhancements to the WID, WLDS, MoSCORES, and MERIC website would help DHEWD business and ITSD staff maintain all more efficiently and effectively, and in the case of MoSCORES and MERIC, provide more engaging and comprehensive search and data tools for job center customers and other external users, resulting in an improved customer experience with savings from reduced DHEWD and ITSD staff time for maintenance and ad hoc information requests.

**6c. Provide a measure(s) of the program's impact.**

Enhancements to the WID, WLDS, MoSCORES, and MERIC website would help DHEWD business and ITSD staff maintain all more efficiently and effectively, and in the case of MoSCORES and MERIC, provide more engaging and comprehensive search and data tools for job center customers and other external users, resulting in an improved customer experience with savings from reduced DHEWD and ITSD staff time for maintenance and ad hoc information requests.

**6d. Provide a measure(s) of the program's efficiency.**

Additional reporting capability using Catch Intelligence will also better enable DHEWD business staff to meet federal reporting requirements while also freeing time and resources for other projects and information requests.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The agency will ensure this project is a top priority and allocate resources accordingly. The enhancements will be communicated to all parties involved to ensure the new functionality is utilized both internal and externally.

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30607C which is now combined with this section beginning FY2021.

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 or FY20. Financial history also combines expenditures from budget unit 30605C which is now combined with this section beginning FY2021.

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30603C which is now combined with this section beginning FY2021.

Other	723,348	931,390	677,596	N/A

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30599C which is now combined with this section beginning FY2021. All GR supporting this section was erroneously changed to federal stimulus in FY22 budget cycle - there was an NDI request to accompany this core to get the GR back for DED.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The DED is responsible for the administration of many programs consisting of both grants and tax credits. These programs require collaboration with external stakeholders, internal partners, and program administrators. Currently, 34 systems and database tools are utilized between these programs with many requiring duplication of data management between these systems as they cannot transfer project information systematically. This results in inefficiencies such as increases in processing time, data integrity risks, insufficient reporting, and reductions in the visibility of project information to all stakeholders within the process.

ITSD-DED, in conjunction with DED, is requesting an integrated solution incorporating more modern technological tools, which will allow for a more cohesive experience for the citizens and department. This will enhance the citizen experience by allowing for self-service outside of regular business hours, along with data sharing between department functions, which will allow for fewer data entry points, as well as a streamlined workflow to enhance efficiency and transparency of the department. The solution will provide critical upgrades to the Department's outdated systems, enhance the information sharing capabilities of program staff, help to ensure compliance with State and federal mandates, and provide more efficient customer service and return on investment to taxpayers.

The systems will be easier to learn and allow the department to bring on staff with minimal training.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

PS- 500 hours of application developer time and 335 hours of quality control tech time per application with 5 applications developed  
 \$57,062 - computer equipment for agency FTE managing the project (laptop, monitors, etc)  
 \$69,000- consulting and training services for the application development

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

Improved number of applications reviewed and approved.

**6b. Provide a measure(s) of the program's quality.**

Improved customer satisfaction by lowering the barrier to learning and applying for DED's financial programs.

**6c. Provide a measure(s) of the program's impact.**

**6d. Provide a measure(s) of the program's efficiency.**

Reduction of the cycle time of internal processes due to increased efficiency.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

DED/BCS will work in cooperation with OA/ITSD to provide for an integrated solution incorporating more modern technological tools and critical upgrades to outdated ITSD systems, enhance the information sharing capabilities of program staff, help to ensure compliance with state and federal mandates, and provide more efficient customer service and return on investment to taxpayers. The systems will be easier to learn and allow the department to bring on staff with minimal training.

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30597C which is now combined with this section beginning FY2021.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In 2019, Executive Order 19-02 moved Office of Public Counsel from Department of Economic Development to the Department of Commerce and Insurance. OPC was added to DCI's budget in FY20 with a very limited appropriation authority in GR. Fund spend analysis over the past three years indicates an increase is needed to meet OPC's ongoing costs including equipment, software, software renewals, State Data Center Bills and Telecommunication Bills. It has also been noted that Public Service Commission is implementing a software called PowerPlan. To increase efficiencies at OPC, they will utilize one of PSC's licenses. This will add cost to OPC's ongoing maintenance of around 25,000.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

FY23 original budget appropriation was \$1,000 . Planned budget is around \$30,000, which includes monthly SDC bills, Telecom bills, computer equipment, software renewals and desktop software purchases.

There is no change to FTE. This is an EE increase only. Outsourcing is not an option as the funds will cover equipment and software as well as State Data Center and Telecommunication bills. This will be ongoing funding.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30594C which is now combined with this section beginning FY2021.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Labor and Industrial Relations (DOLIR) has applied for and is expecting to receive American Rescue Plan Act (ARPA) funds to assist with fraud detection and prevention, identity verification, and overpayment recovery activities in its Unemployment Insurance Program. These activities will require the assistance of Office of Administration, Information Services Technology Division (ITSD) and their contractors.

Additional grants may be offered to ensure equitable access to Unemployment Compensation Programs within the ARPA, which will require ITSD assistance.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The DOLIR has estimated that completing the work related to these grants will require OA-ITSD staff performing the following functions: Business Analyst, Tester, and Infrastructure Support. In addition, OA ITSD staff will need to supervise and monitor work performed by contractors. DOLIR based these estimates on previous technology projects. The project is expected to operate between April 2022 and September 2023. Additional grant opportunities may arise during that time, which DOLIR and OA-ITSD will evaluate.

DOLIR assumes that ITSD will have available FTE authority.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

**NEW DECISION ITEM**

RANK: \_\_\_\_\_ OF \_\_\_\_\_

Department: Office of Administration	Budget Unit	30596C
Division: Information Technology Services Division (ITSD)		
DOLIR ITSD- ARPA Fund Authority	DI# 1300026	HB Section 5.030

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

For FY 2021, there were 969 claimants determined to have fraudulently received benefits out of 139,596 claimants receiving benefits.

DOLIR expects new technology and enhanced identify-proofing processes will reduce fraudulent claims from being paid.

**6b. Provide a measure(s) of the program's quality.**

In FY 2021, the percentage of unemployment claims that were improperly paid was 10.8%. In FY 2020, it was 5.1% and Missouri ranked 14th out of 52 jurisdictions (states and territories). The large number of claims filed in FY 2021, created backlogs that prevented the agency from having the necessary time to make a proper determination.

DOLIR expects new technology and enhanced identify-proofing processes will reduce the amount of overpayments.

**6c. Provide a measure(s) of the program's impact.**

A reduction in fraudulent payments and the improved collection of overpayments will reduce the cost of the Unemployment Insurance program to employers.

**6d. Provide a measure(s) of the program's efficiency.**

The DOLIR expects to see a reduction in fraudulent payments and improvement in overpayment collection.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

Assist in the implementation of enhanced identify-proofing processes within the UInteract System.

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30592C which is now combined with this section beginning FY2021.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Public Safety, Office for Victims Crime (DPS-OVC), assigned to the Director's Office, administers the state's Crime Victims' Compensation Program (CVC) that includes the Sexual Assault Forensic Examination Program (SAFE) and the Child Physical Abuse Forensic Examination (CPAFE). CVC serves victims and families experiencing life-altering, traumatic situations by providing financial assistance as a payor of last resort. Payments may include payment of bills for medical, behavioral health, funeral costs, lost wages and loss of support up to \$25,000/crime. CPAFE and SAFE are payors of first resort, per statute no victim shall be charged for a forensic examination. DPS-OVC is seeking to procure a system that will allow for the digital submission of applications and digital correspondence with victims of violent crimes and related service providers.

This solution will allow for a quicker response from DPS-OVC, which will in turn provide quicker response times for victims, families and service providers. Currently, DPS-OVC receives applications for CVC/SAFE/CPAFE in paper format with substantial supporting documentation. CVC staff spend time manually entering the application into the current CVC system, manually scan the required supporting documentation, and are only able to correspond with victims, advocates and service providers via snail (paper) mail, email or phone. To check the status of a claim or application, victims, advocates and providers must call or email CVC to request information related to their application, claim or eligibility. This is an undue burden as it often requires victims to repeat their story. Further, due to the complexity of the internal processes accurate data collection is extremely difficult. Verifiable data is critical in maintaining and securing state and federal program funding. The solution DPS-OVC is seeking would not only improve the victim experience with CVC it would enhance the program accounting practices, reporting and accessibility to the program participants.

This decision item was approved in FY23 and made one time funding. At the time of department budget submission, there is not yet a project plan with set deliverables in place so this request is identical to the FY23 request to ensure successful completion of the project.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

In consultation with ITSD, the DPS-OVC completed significant research about what other states using for their programs, including off-shelf and customized systems available with the required functionality. The overarching theme was customization; as each state has identical federal reporting requirements their laws and statutes differ significantly. The research led to the Texas system. The functionality and components of the Texas system are nearly identical to the needs CVC. The Texas system was the best solution to meet the identified needs and requirements. The estimated implementation cost is \$1,068,707. Of this, \$1,008,707 is vendor cost to implement the new solution, and \$60,000 is the estimate for ITSD and DPS-OVC hours needed to assist with the implementation. It also has an estimated return on investment of \$358,750 - \$373,750 over a 5 year period, once the program goes live.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

The goal of this new electronic system is that 90% of communication with constituents about application status is resolved digitally.

**6b. Provide a measure(s) of the program's quality.**

Improved security, efficiency and cost reduction. The goal is a 10% initial adoption rate and 80% adoption rate by the end of FY 2025.

**6c. Provide a measure(s) of the program's impact.**

Monitor adoption rate. 80% adoption of digital application submittal process by the end of FY 2025 (means that 80% of all program applications are digital). Victims will be able to check the status of their claim online and there will be a must faster turnaround time for victims.

**6d. Provide a measure(s) of the program's efficiency.**

Initial processing time of 100 days will decrease to 30 calendar days by the end of FY 2025. This improves customer satisfaction and faster processing times.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The DPS-OVC is planning the following strategies to achieve the performance measurement targets:

1. Targeted education, outreach and promotion to key stakeholders, including advocates who assist victims and families, funeral service providers, medical/behavioral health providers, law enforcement, prosecutors and other partner agencies.
2. Development of on-demand training of the new system
3. Ongoing data collection and evaluation of the 24/7 system availability (improved customer experience and accessibility)
2. Ongoing data tracking, evaluation and reporting improved reporting and accounting

Survivors, victims, and other concerned citizens of Missouri deserve access to timely and accurate information about offenders in the criminal justice systems, jails, and prisons. The newly proposed MO Victims of Crime Alert Portal (MO-VAP) is expected to expand an existing data pathway between local law enforcement, state corrections, state mental health facilities, and state courts to provide reliable notifications to victims in a timely manner. The MO-VAP aims alleviate the burden the current system puts on victims to manage multiple registrations.

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Department of Public Safety's (DPS)-Missouri Veterans Homes Program requires an increase in funding to support ongoing ITSD costs including computer equipment and state data center costs to support MVC systems. Historically, DPS-MVC Veterans Homes Program utilized fund 0460, but required flex from various other funds to support total expenditures. Fund 0460 is no longer earning cash and will eventually run out so flexing from other funds is not sustainable and IT costs would have to be billed back to DPS. Due to fund limitations, DPS-MVC has been forced to limit their five-year end of life equipment replacements and other key purchases to continue operations.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

Funding will replace approximately 100 end of life devices for MVC staff annually. and pay for state data center services which keep critical applications running

**6b. Provide a measure(s) of the program's quality.**

Sufficient services from the state data center and the ability to replace end of life equipment will make sure computers and systems are up and running at all times providing the best quality service to veterans as possible.

**6c. Provide a measure(s) of the program's impact.**

This funding will ensure DPS-MVC employees are able to most efficiently perform their daily duties with less down time from older machines

**6d. Provide a measure(s) of the program's efficiency.**

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year. FY2019 & FY2020 financial history also combines expenditures from budget unit 30589C which is now combined with this section beginning FY2021.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Analytical data from the prior three years indicates DOC ITSD operational spending exceeds the appropriation authority. Cost increases in services, hardware and software has made it difficult for DOC ITSD to continue operating at the same level as the other 13 consolidated agencies. These increased costs have historically been covered by the utilization of flexibility within ITSD's budget and from funds collected under the offender telephone services contract.

**NEW DECISION ITEM**

RANK: \_\_\_\_\_ OF \_\_\_\_\_

<b>Department: Office of Administration</b>	<b>Budget Unit</b> <u>30591C</u>
<b>Division: Information Technology Services Division (ITSD)</b>	
<b>DI Name DOC IT Additional Authority</b> <b>DI# 1300027</b>	<b>HB Section</b> <u>05.030</u>

Flexibility is not a sustainable solution as it decreases the funds available to OA ITSD's core budget to cover other rising costs. The funds collected from the offender telephone service contract can no longer be used as this is not going to be a requirement of the telephone service contract going forward. This contract collected approximately \$408,000 annually. Daily operational costs for state data center services and network connectivity in the institutions continues to grow and additional funding is needed in the DOC appropriation to support it.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Operational costs have seen increases each fiscal year. Telecommunication charges have seen a \$950,000 increase from FY20 to FY22. SDC costs have seen an increase of \$726,000 from FY20 to FY22 and other charges such as equipment, software, services and maintenance have increased close to \$963,000 since FY20. ITSD has seen an overall cost increase in most areas of operations. We are asking to right-size DOC's ITSD budget by \$2,500,000.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an activity measure(s) for the program.**

State Data Center and network services supporting DOC applications and computer equipment can continue to operate at full capacity if funding is appropriated to support the services

**6b. Provide a measure(s) of the program's quality.**

**6c. Provide a measure(s) of the program's impact.**

**6d. Provide a measure(s) of the program's efficiency.**

DOC staff will have less down time if the proper services and equipment can continue to be provided by ITSD. This funding will ensure those services can be paid for and continue to support DOC.

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30585C which is now combined with this section beginning FY2021.

\*Current Year restricted amount is as of \_\_\_\_\_.

Reverted includes the statutory three percent reserve amount (when applicable).

Restricted includes any Governor's expenditure restrictions which remained at the end of the fiscal year (when applicable).

#### NOTES:

Actual appropriation is the budget authority amount after all required flexibility transactions were processed. Flexibility is used to help manage priorities for all consolidated agencies as IT needs for each agency can change very rapidly throughout the year FY19 and FY20. Financial history also combines expenditures from budget unit 30587C which is now combined with this section beginning FY2021.

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> Various <b>BUDGET UNIT NAME:</b> ITSD Department IT Core <b>HOUSE BILL SECTION:</b> 5.030	<b>DEPARTMENT:</b> Office of Administration <b>DIVISION:</b> Information Technology Services Division
--	--

**1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.**

### DEPARTMENT REQUEST

ITSD is requesting 25% flex between PS & EE within section 5.030 and 25% flex between section 5.025 and section 5.030. This is the same level of flexibility as FY23. This flexibility is requested to help manage priorities for all consolidated agencies. Constantly changing needs of departments served by ITSD require that funding be flexible so that proper spending from the appropriations is maintained. It is critical ITSD retain key technical staff that continue to optimize the IT systems and maintain technical support so that E&E operating costs are contained and managed. In addition, certain software, equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner without artificially increasing the "federal and other" appropriation authority of various funds.

**2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.**

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
\$7,268,692	Unknown	Unknown

**3. Please explain how flexibility was used in the prior and/or current years.**

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
To adjust funding sources for PS and EE for various ITSD appropriations in order to optimize ITSD efficiencies and maintain critical IT infrastructure for all agencies	Flexibility will be used as necessary to optimize ITSD efficiencies and maintain critical IT infrastructure for agencies.

## PROGRAM DESCRIPTION

Department Information Technology Services Division

HB Section(s): 5.025 & 5.030

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

### 1a. What strategic priority does this program address?

- Technology Solutions: Looking to the future, implement technology that will improve how we work and provide a better customer and team experience

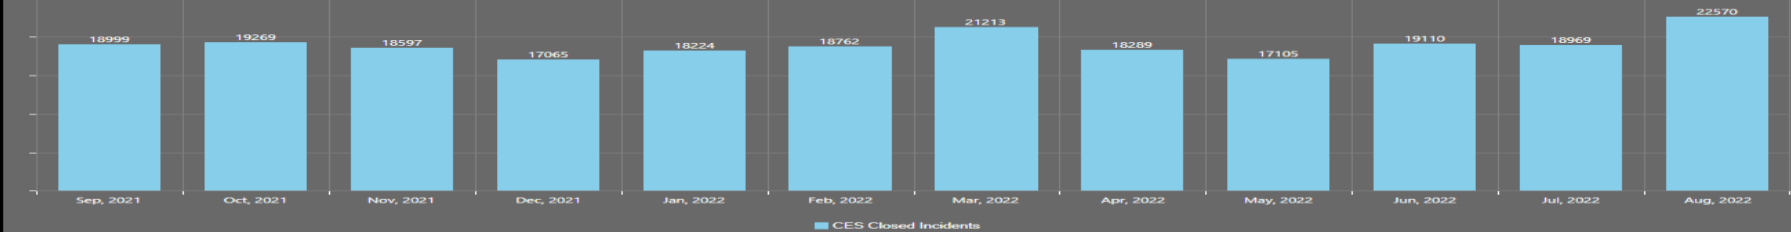

### 1b. What does this program do?

Client Engagement Services (CES) consists of a Call Center, Desktop Services, Inventory Control, Service Technicians, Customer Care Team, and Virtual Services. CES provides customer service to 14 executive agencies, the Governor's Office and Lt. Governor's Office. CES provides a Call Center for support issues, installs computer equipment, troubleshoots technical issues, manages windows security/updates, installs software, runs reports, manages inventory for all ITSD equipment, 5 year refresh, ewaste of ITSD equipment, on call 24/7 for VIP issues, manages the virtual desktop environment, and RSA administrator for State team members across the state to allow them to provide vital services to Missouri citizens.

### 2a. Provide an activity measure(s) for the program.

- ITSD works help desk tickets entered by agency clients every day.

### 2b. Provide a measure(s) of the program's quality.

- CES strives to resolve customer issues on the first call or contact with ITSD.

## PROGRAM DESCRIPTION

Department Information Technology Services Division

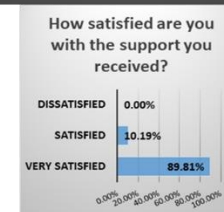

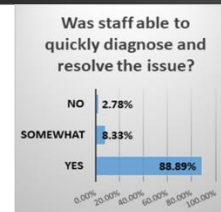

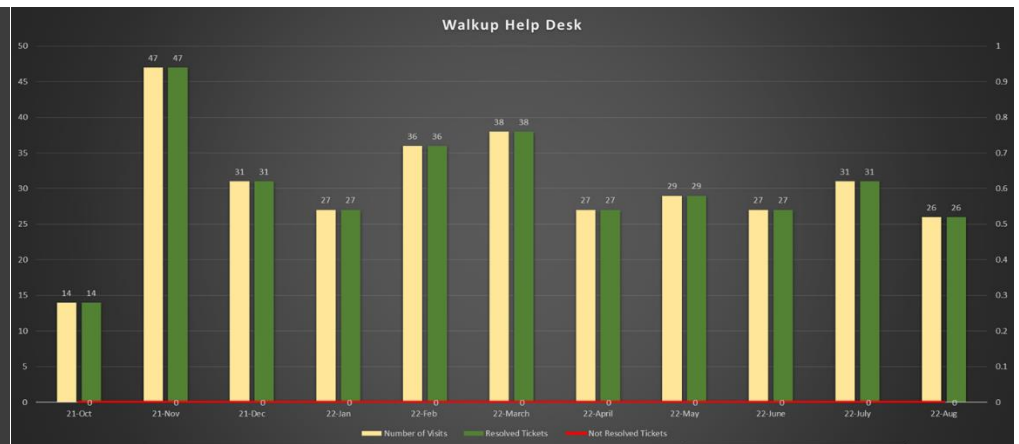

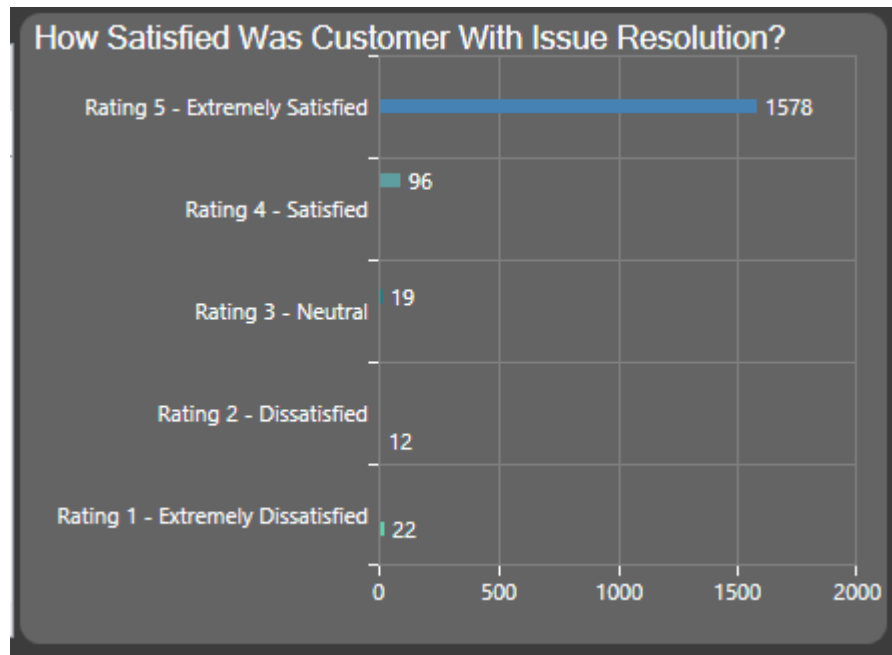

HB Section(s): 5.025 & 5.030

Program Name Client Engagement Services

Program is found in the following core budget(s): Information Technology Services Division

### 2c. Provide a measure(s) of the program's impact.

- ITSD seeks customer feedback on help desk tickets through a survey when each ticket is closed. This practice was implemented last with the new ITSD service portal tool. Rating scale is 1-5 : 5- Extremely Satisfied, 4- Satisfied, 3- Neutral, 2- Dissatisfied 1- Extremely Dissatisfied. In October of 2022 we opened a Walkup Help Desk and have also been tracking customer feedback.

## PROGRAM DESCRIPTION

**Department** Office of Administration

**HB Section(s):** 05.025 & 05.030

**Program Name** State Data Center, Network and Telecommunication

**Program is found in the following core budget(s):** Information Technology Services Division

### 1a. What strategic priority does this program address?

- Technology Solutions: Looking to the future, implement technology that will improve how we work and provide a better customer and team experience

### 1b. What does this program do?

- Provide network and telecommunications services to both consolidated & non-consolidated state agencies. Services include local phone service, long distance, data circuits, internet access, wireless services, managed network, video conferencing, WebEx meeting services, and other communications services. Other services include Call Center, Digital Signage, enterprise digital fax service, and the WebEx app for team collaboration.
- Provide compute and storage infrastructure services to both consolidated & non-consolidated state agencies. Services include mainframe, midrange, and open system servers (Windows and Linux servers), database services, storage services, application platforms for web and general applications, backup & recovery services for application process, electronic content and document services, data protection services, Data Center infrastructure services and other application support platforms. Additionally, maintenance and upgrades on the compute and storage infrastructure is provided. A Network Operations Center (NOC) serves as 24x7 operations and problem reporting center that monitors the availability of network and infrastructure services as well as a reporting center for after hour issues experienced by customers.

### 2a. Provide an activity measure(s) for the program.

CICS (Customer Information Control System) is one of the major sub-systems running on the Enterprise Server (Mainframe). It is an application server that processes transactions to provide services for running mixed-language programs and manages a large volume of submitted requests to run the same applications, using the same files and programs.

CICS manages the sharing of resources, the integrity of data and prioritization of execution, with fast response times as well as providing high availability and scalability at a low cost per transaction. CICS authorizes users, allocates resources, and passes on database requests by the application to the appropriate database manager.

The chart below shows the number of monthly CICS transactions executed indicating the level of reliance of this service to deliver critical services (for some agencies).

### 2b. Provide a measure(s) of the program's quality.

- Network availability is critical to the enterprise operations of all consolidated and non-consolidated agencies. The network consists of all agency locations throughout the state. Uptime is measured by data transfer continuity. This is monitored primarily by the Orion Network Monitoring system. The goal for network uptime is 99.9% (this allows for equipment replacement and upgrades). We are currently at 99.72% for timeframe 1/1/2022 – 7/3/2022. The data includes telco provider and power outages.

### 2c. Provide a measure(s) of the program's impact

The Network Operation Center (NOC) has been created to provide an effective enterprise incident management and communication process. The NOC is the hub for all IT internal and external communications for all IT incidents, status updates and incident reporting. The purpose of the NOC is to provide a central location (command and control) for all IT staff to communicate and coordinate production incidents. The NOC will receive an alert, assess impact, assign classification, alert appropriate personnel, establish communication channels, document, and provide incident reports and status updates.

**2d. Provide a measure(s) of the program's efficiency.**

- Analog phone lines are being phased out throughout the country. Large phone companies are installing fiber circuits to allow more traffic and greater control in routing those calls. Support costs for the analog lines are therefore increasing each year. ITSD/Networking-Telecom has been working with agencies to convert these lines to digital circuits for several years. Phone lines are being converted to UC (VoIP) and fax lines are being converted to the state's enterprise eFax server Biscom. These conversions have lowered costs for the circuits, reduced long distance costs and made faxing more secure. The goal is to convert a minimum of 1,200 lines per year. The average cost of an analog line is \$28.85/month. The cost of a UC phone line is \$11.26/month. The graph below shows new annual savings as a piece of the total annual savings through 2019. There are approximately 7,536 lines left to convert for a total future savings of \$1,590,698/annually.

### 2. CORE DESCRIPTION

Under Chapter 34, RSMo, OA is responsible for the procurement of supplies, equipment, and services for state departments. OA is currently implementing a statewide eProcurement system. New statewide contracts now include language that requires a one percent administrative fee on all transactions under those contracts. Contractors are required to report transaction totals for the given quarter and submit a check/electronic payment to the State of Missouri. This practice is consistent with the other states which have implemented e-procurement systems. The revenue generated by the one percent fee is to be deposited into its own fund to improve transparency and tracking. The revenue collected into this fund will be used for licensing, maintenance, support and activities related to the eProcurement system.

### 2. CORE DESCRIPTION

This funding is necessary to replace SAM II, the State's legacy Enterprise Resource Planning (ERP) system that was implemented in 2000.

The system is critical and supportive to all segments of State government. All payments from the State Treasury touch SAMII. Critical components with statewide impact include: Employee payroll processing, vendor payment processing, statewide budgeting, budget and cash controls, annual tax reporting (W2s and 1099s) capital asset tracking, data warehouse capabilities, and federal grant tracking. SAM II is written in COBOL, the staff with knowledge to support the system are dwindling both at the State and at the Contractor. Few changes are possible with the exception of required annual patches to produce year-end tax forms. Maintenance payments are increasing annually while the support is continuing to decline from the Contractor as their knowledgeable retire. The risk of key State staff retiring continues to increase. It is possible that the legacy system will not be able to be certified with each new version of Microsoft and IBM infrastructure that is required for the State's security controls. SAM II is a critical enterprise-wide system for bonds, vendors, payroll and payment controls.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This funding is necessary to replace SAM II, the State's legacy Enterprise Resource Planning (ERP) system that was implemented in 2000. The system is critical and supportive to all segments of State government. All payments from the State Treasury touch SAMII. Critical components with statewide impact include: Employee payroll processing, vendor payment processing, statewide budgeting, budget and cash controls, annual tax reporting (W2s and 1099s) capital asset tracking, data warehouse capabilities, and federal grant tracking. A new ERP is critical to support basic data analysis and fact-based decision making on topics such as workforce strategy, program budgeting, and procurement. Our current SAM II system poses a significant operational risk to the functioning of the government. SAM II is written in COBOL, the staff with knowledge to support the system are dwindling both at the State and at the Contractor. Few changes are possible with the exception of required annual patches to produce yearend tax forms. Maintenance payments are increasing annually while the support is continuing to decline from the Contractor as their knowledgeable retire. The risk of key State staff retiring continues to increase. Coding techniques have changed and there are components of the core modules that can only be assembled in a compiler that is 2 versions behind today's standard.

<b>Division:</b> Information Technology Services Division	
<b>Enterprise Resource Planning (ERP) Replacement</b> DI# 1300039	<b>HB Section</b> 5.045

SAM II is a critical enterprise-wide system for bonds, vendors, payroll and payment controls.  
The ERP software, implementation services, and independent validation and verification oversight contracts have all been awarded, and the implementation design and configuration for this project began in September, 2022. Additional funding is needed in FY24 as it is estimated to be the peak cost year for the project.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The contracted costs for the software, implementation services, project management, and independent validation and verification oversight are expected to be \$42,229,640 in FY24. Implementation of the new Budget module has started with a 13 month planned implementation timeframe. The Finance/Procurement/Grants/Cash Management/Asset Management modules are also part of the initial project phase and have an estimated 24 month implementation timeframe. Additional authority of \$16,229,640 will be needed in FY24 beyond what is currently available in core funding. This is expected to be the peak cost year for the project.

**6. PERFORMANCE MEASURES (If new decision item has an associated core, separately identify projected performance with & without additional funding.)**

**6a. Provide an effectiveness measure.**

The goal with a new system is real-time information for management of cash balances, journals and ledgers. A table-driven system would allow documents, events and business rules to be easily customized for journal postings, document cloning, security and workflow.

The new system could encompass grants management capabilities, allowing some agencies to retire other systems in order to use a single system. More than four disparate systems exist, while some agencies use Microsoft Access and Excel for tracking. A new system will also provide performance budgeting capabilities, and allow the capture of justification, goals, objectives, performance measures, and dashboard features.

## 6b. Provide an efficiency measure.

SaaS is a web-based architecture that would eliminate the need to support the desktop software version. This system will be vendor supported, which would allow ITSD to redirect the five current COBOL developers to modernization of other legacy systems supported by ITSD. Technology risks could be mitigated by increased security.

A new, robust system could eliminate agency specific systems for grants management, more detailed budgeting, etc. Based on information provided by other agencies, a new system could result in cost avoidance of over \$10 million for new or replacement of disparate systems for tracking grants, training, timekeeping, employment applications, inventory, professional development, etc.

## 6b. Provide an efficiency measure.

\* Due to the current vendor maximizing allowable increases on the contract, the State discontinued vendor maintenance for the budgeting module of SAMII (BRASS) in 2017. This eliminated \$161K in support costs and if this had not been done, the vendor maintenance for FY2017 would have exceeded \$800K. The State must continue paying vendor maintenance for the other portions of the ERP system due to annual system updates to vital tax information.

**6c. Provide the number of clients/individuals served, if applicable.**

SAM II has approximately 2900 financial users, 1653 HR users, and processes payroll statewide. Additionally, our vendor community is tied to SAM II as well as Missouri BUYS.

**6d. Provide a customer satisfaction measure, if available.**

Customer satisfaction would primarily come from the end-users of the system. We do not have a metric at this time, but would perform a survey after migration to the new system. System implementation goals would include a seamless transition for vendors and state employees who receive payments from the State's ERP.

---

**7. STRATEGIES TO ACHIEVE THE PERFORMANCE MEASUREMENT TARGETS:**

The implementation phase of the project has started.

## PROGRAM DESCRIPTION

**Department** Information Technology Services Division

**HB Section(s):** 5.030 & 5.045

**Program Name** Application Delivery

**Program is found in the following core budget(s):** Information Technology Services Division

### 1a. What strategic priority does this program address?

- Technology Solutions: Looking to the future, implement technology that will improve how we work and provide a better customer and team experience

### 1b. What does this program do?

ITSD Application Delivery is delivering solutions to help state agencies fulfill their mission. Current examples include:

- Delivering processes efficiently and securely while ensuring accessibility and ease of use to our citizens.
- Providing guidance to agencies when purchasing software to ensure that standards for secure, accessible and user-friendly applications are delivered.
- Creating standards for development so that ITSD delivers consistent, quality applications and responds quickly to business needs.

## PROGRAM DESCRIPTION

**Department** Information Technology Services Division

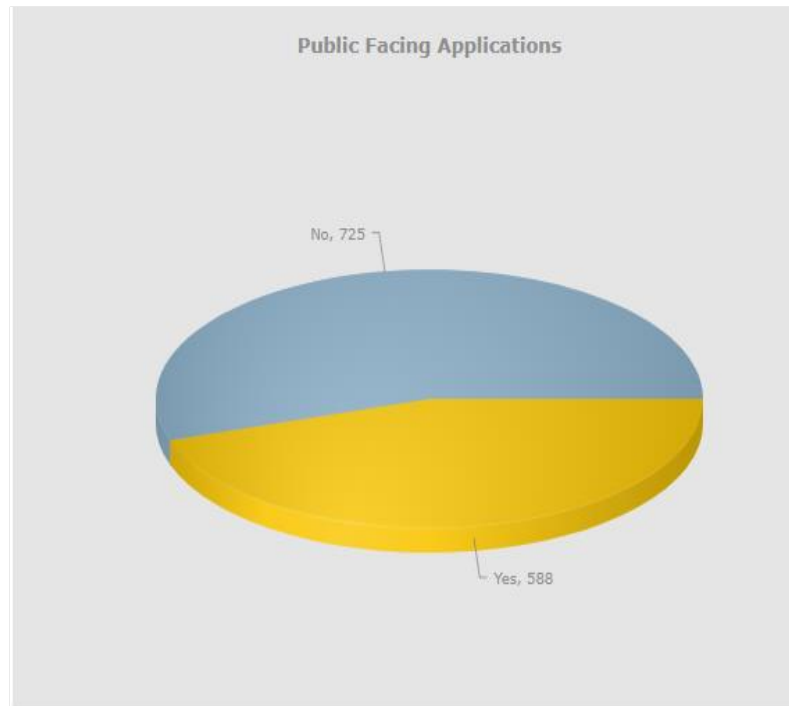

**HB Section(s):** 5.030 & 5.045

**Program Name** Application Delivery

**Program is found in the following core budget(s):** Information Technology Services Division

### 2a. Provide an activity measure(s) for the program.

- ITSD Application Development teams develop, modernize, and maintain applications for state agencies. These applications are for both our internal digital services at the State as well as external digital services for our citizens.

## PROGRAM DESCRIPTION

**Department** Information Technology Services Division

**HB Section(s):** 5.030 & 5.045

**Program Name** Application Delivery

**Program is found in the following core budget(s):** Information Technology Services Division

### 2b. Provide a measure(s) of the program's quality.

- ITSD conducts a survey after the completion of each project. Overall scores are averaged for each quarter. The scale is from 1 to 4 with 4 being the highest. Our projects were an area identified that need improvement. We have developed an impactful training program for both IT and our business partners to address this needed improvement. This program started in the fall of 2019 and we are seeing positive results.

Survey Results FY22 Q1 - FY22 Q4

- Security Scans are conducted at least quarterly for an application. Our targets are higher than industry security standard recommendations. This chart depicts our average security score each calendar quarter as well as the recommend target score for a low impact and high impact application. Impact is based on the business criticality of the application. The goal is to remain above 90 for our average scores regardless of impact.

### 2c. Provide a measure(s) of the program's impact.

- Application Delivery enables our agencies to deliver direct impact to our citizens. Specific details of those impacts are in the individual agency program descriptions. The number of applications supported by agency are listed below.

### 2d. Provide a measure(s) of the program's efficiency.

## PROGRAM DESCRIPTION

**Department** Information Technology Services Division

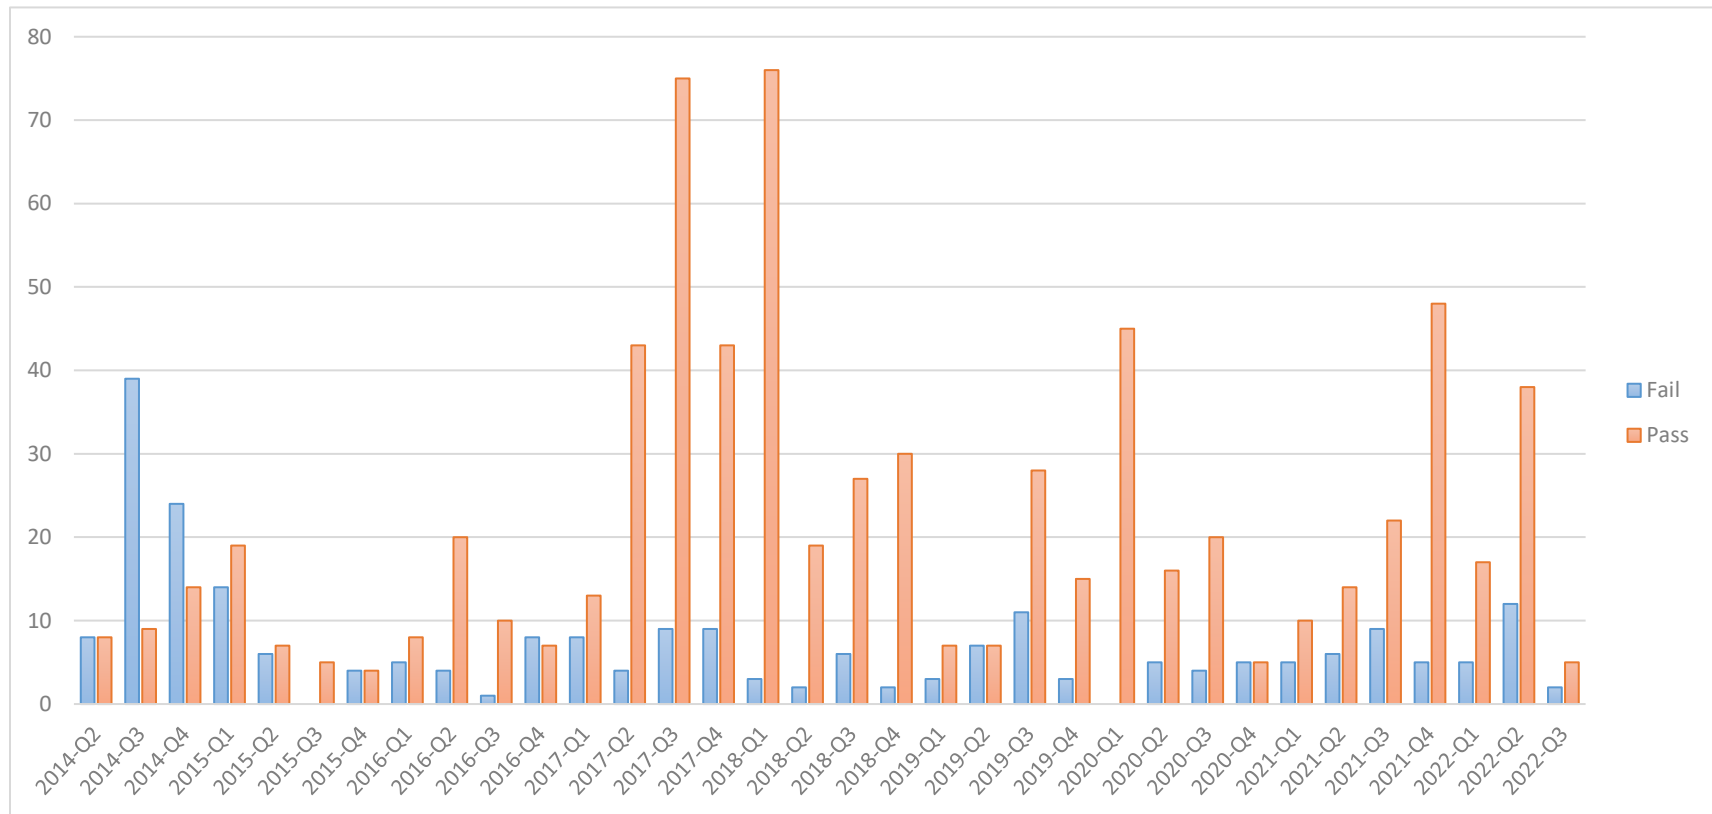

**HB Section(s):** 5.030 & 5.045

**Program Name** Application Delivery

**Program is found in the following core budget(s):** Information Technology Services Division

- ITSD scans applications to address any potential cyber security vulnerabilities. The chart below shows how often the very first scan of an application is passing. When an application passes the first scan, there is no rework that must be done to comply with our security standards. The practice of scanning applications and training developers on mitigating cyber security risks keeps citizen data as secure as possible from the inception of an application. Applications are routinely scanned to ensure any new threats are addressed timely.

### 2. CORE DESCRIPTION

The Division of Personnel is transforming the State of Missouri's talent management approach to better serve the citizens of Missouri. We are committed to recruiting, retaining and developing top talent across the State's ~50,000 employee enterprise. The division oversees personnel policies that impact State of Missouri workforce including the Uniform Classification and Pay (UCP) System. In collaboration with Human Resources professionals from each of the 16 executive departments, the division develops and carries out initiatives designed to benefit state team members.

The Division of Personnel also:

- Ensures employees are assigned to appropriate job classes and develops and administers the statewide classifications and compensation plan for agencies covered by the UCP.
- Provides consistent talent management metrics for statewide decision making. This includes acquisition, retention and development data; pay, leave and reporting information on the UCP system pay plan; interprets policies on pay, leave and hours of work; provides workforce reports and assistance with the SAM II HR/Payroll System; and ensures personnel transactions are in compliance with state personnel law.
- Facilitates technological systems and programs for performance management and professional development; administers statewide recognition programs; and coordinates employee discount programs. Provides human resource support for the Office of Administration.
- Provides leadership and innovation for activities regarding Talent Acquisition of new team members. This includes technology to support hiring processes through our applicant tracking system, MoCareers.
- Initiatives also include direction around best-in-class recruiting approaches and new employee onboarding.

<b>DEPARTMENT REQUEST</b>	
The Division of Personnel requests 5% flexibility of Personal Services and Expense/Equipment be approved. The flexibility would allow the Division of Personnel to effectively manage responsibilities and resources given the statewide workforce management initiatives that the Division has taken on in recent years. This is the same amount of flexibility that was approved in FY23.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$142,026	Unknown
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
5% flexibility is being requested for FY 2023	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Funding was flexed in FY23 from PS to E&E to cover expenses associated with MO Careers, LinkedIn Recruiting, an in-person hiring event, and a Missouri Chamber Foundation event.	The flexibility will allow the Division of Personnel to effectively and efficiently manage resources given the statewide workforce management initiatives that the Division has taken on in recent years.

### 1a. What strategic priority does this program address?

The strategic priority of this program is to build the State of Missouri workforce for the future.

### 1b. What does this program do?

- Modernizes the State's approach to statewide recruitment by partnering with executive departments to help fill critical roles. Our goal is to hire the right people, in the right places, at the right time by leveraging new technologies, approaches and outside partnerships.
- Coordinates statewide talent management and learning solutions to build a better and more effective State of Missouri workforce. Our goal is to pursue and implement opportunities that enable "best in class" training content to be consistently distributed across State government in the most efficient way possible. Key areas of focus include developing a talented workforce, enriching professional growth and recognizing team member's efforts while building a culture of coaching.
- Supports State team members and executive departments through maintenance of the classification structure, position/job analysis, compensation administration, and examining turnover trends. Provide quality assurance for agency transactional human resources.
- Provides statewide Human Resources (HR) data analysis and visualizations to stakeholders at all phases of the employee lifecycle on a routine and ad hoc basis. Supports SAMII HR maintenance, administers workforce surveys, and provides customer support for the talent management technologies.
- In addition to all statewide talent responsibilities, the Division of Personnel administers human resource functions for 1,700 state employees of the Office of Administration.

### 2a. Provide an activity measure(s) for the program.

Attracting more applicants increases the candidate pool from which to select new hires. It is also an indication of how many users we are driving to the applicant tracking system. Pipeline requisitions are a tool used to keep constantly open positions visible at all times without having to repost; they are excluded from this measure.

\*FY 2020 data is for a partial year. MOCareers launched January of 2020; no prior year data is available.

The statewide new employee onboarding survey launched July 1, 2020. This optional survey is distributed to new team members when they reach certain key milestones in their employment (30, 90, 180 and 365 days). The data help target specific improvements in the hiring and onboarding process to ensure that all team members feel part of the team and have the tools they need to be successful in their role.

### Total Employee Transactional Processes Approved

The Transactions Team audits employee actions submitted by Uniform Classification & Pay System (UCP) agencies. These transactions enact employee changes such as promotions, retirements, pay increases, and other work transitions. Transactions are reviewed for quality control and compliance with State Personnel Law--revisions are made as needed and final approval is applied in the SAM II HR system. Division of Personnel process 100% of ESMTs received.

### Number of Position Classification Reviews

The division conducts position classification reviews as required by 1CSR 20-2. The process is designed to ensure a team member's job duties are clearly and properly classified in relation to the job family, career path, and classification specifications. The division adopted a new statewide classification structure on July 1, 2020 creating well-defined career paths, broad classifications, reducing the number of classifications by nearly 50 percent.

Turnover costs are calculated by multiplying the average salary of the executive departments by one-third, then multiplying by total separations. According to the Society for Human Resource Management (SHRM), each employee departure costs about one-third of their salary. Projected turnover costs are calculated using the same calculation based on a five year average increase in total separations of 5.29% and five year average increase in average salary of 5.66%.

The passage of House Bill 2400 during the 101st General Assembly, 2nd Regular Session (2022), creates "the Personal Privacy Protection Act, section 105.1500, RSMo. The effective date of the Act was August 28, 2022. The Act makes all "personal information" of a 501(c) in the possession of a public agency a closed record under chapter 610 RSMo. In order to avoid violation of the new law, effective August 28, 2022, bid and contract records available in the Division of Purchasing's Awarded Bid and Contract Document Search and posted on the MissouriBUYS Contract Board were removed from public access.

Any new procurements awarded or cancelled on or after August 28, 2022 are being reviewed and redacted as needed for compliance with section 105.1500 RSMo and then will be made publicly available on the Awarded Bid and Contract Document Search site. As older records are reviewed in response to open records requests received, those records will also be made available on the Awarded Bid and Contract Document Search after the necessary review and/or redaction work has been completed.

The Division of Purchasing is requesting two (2) FTEs (Admin Support Assistant) needed to redact bid and contract records for all "personal information" of a 501(c) in order to avoid violation of the new law in order not to impede progress on state agency procurements. This request also includes E&E costs for computer equipment and furniture for the two requested staff.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Two FTE (admin support assistant) are needed to redact bid and contract records for all "personal information" of a 501(c) in order to avoid violation of the new law. The two FTE are needed due to the increased workload for the Division of Purchasing.

**5. BREAK DOWN THE REQUEST BY BUDGET OBJECT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

### 2. CORE DESCRIPTION

The core request is for funding to promptly refund the vendor's bid or performance security that was deposited into the State Treasury during the procurement process. Checks are received from vendors as bid or performance security and deposited into the State Treasury. Interest earned on these deposits goes directly into General Revenue. After the bids are awarded or the contractor has performed, these deposits must be promptly refunded to the vendor or contractor. These are refundable deposits and not payments to the State.
